

*“DLC is a partnership of businesses, individuals and the public sector committed to the shared vision of a clean, safe and vibrant Downtown.”*

The mission of the Downtown Lexington Corporation is to promote Downtown as a unique and vibrant place in Lexington for business, residential life & entertainment. As such, we support well thought out infill and redevelopment projects in the downtown area. Criteria involved are an adherence to architectural design, energy efficient initiatives, mixed uses, retail friendly uses and projects that enhance the overall vitality of downtown to consumers, residents and visitors.

We support the Centrepointe project as proposed by The Webb Companies with the hope that all interested parties can work together and come up with a project scheme that is in the best interest of downtown. The DLC also supports the current tax increment financing (TIF) laws which enable Lexington to take part in TIF projects as Louisville and Northern Kentucky cities have utilized.
