RE: CentrepoinTE Project

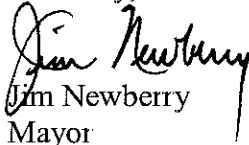

Dear Woodford:

I am writing to thank you again for the exciting project that you have proposed for downtown Lexington. We think that this will not only become the landmark project for our community but also the catalyst for further economic development for the region for many years to come.

The great thing about this being a "mixed use" project is that it introduces new visitors to Lexington as well as many who will live here on an ongoing basis. Of equal excitement is that this will be the first LEED certified building in the region and hopefully will inspire others to build like projects in the future.

Thank you again for your commitment to Lexington.

Sincerely,

Jim Newberry
Mayor
